

Table A – Results of Internal Review Committee

Date of Review/Recommendation: March 27, 2006

Water Body Under Evaluation:

Identification #: 3423
Name: Trib to Mineral Creek (C)
Length of Segment: 1.0 mile
County (ies): Johnson

Use Attainability Analysis Study:

Identification #: 1175
Submitter: DNR staff - Greg Caldwell
Date(s) Conducted: June 7, 2005
Date Received: July 18, 2005
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Completeness Check:

All Required Information Included?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Correct Forms Used?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Forms Signed and Dated?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Comments:		

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments: No interviews were conducted.

Is the evaluated use attainable? ☐ Yes ☐ No

Comments: The UAA was conducted in June 2005 and no WBCR was observed. Three sites were evaluated and none of them met the average or maximum depth criteria. However, photographs indicated the amount of water in the stream (even at site 1, which is in an unclassified segment) was enough to cast significant doubt on a "remove use" ruling. Therefore, the committee feels it could not make a determination about the WBCR designation and recommends more data be gathered.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☐ Remove Use ☒ Inconclusive

Committee Members: Mary Clark, Mark Osborn, Anne Peery
